About Heartland Family Service

Heartland Family Service provides critical services to the most vulnerable children and families in our community. Eighty percent of the clients served have annual incomes of \$20,000 or less, and many programs are offered to the public on a sliding fee scale. Every year, staff helps more than 35,000 clients address serious, urgent issues involving child abuse, juvenile crime, family violence, mental illness, substance abuse, and poverty. In addition, several programs enrich the lives of metro residents through parent education, support for child care providers, a girls' center, and a senior center.
