

BEHAVIORAL HEALTH PROGRAMS

Treatment Approach

Our treatment is a strength-based approach that emphasizes biology, psychology, social and spiritual factors:

- Biology—physical contributors
- Psychology—personality, depression, anxiety, etc.
- Social—family and community environment
- Spiritual—as the client defines

Our program offers education and an opportunity for self evaluation that permits each individual to make informed decisions regarding his or her life, growth and recovery.

We believe that mental health and addiction obstacles affect families and communities as a whole. We are dedicated to reducing these effects in our communities.

Staff

Our professional therapists hold degrees in social work, psychology or other related counseling field, or are certified in their specialties and supervised by licensed staff. All therapists, counselors and caseworkers are committed to offering high-quality services that fit the needs of families and individuals.

WELCOME TO HEARTLAND FAMILY SERVICE

Heartland Family Service is a human service agency dedicated to strengthening individuals and families in our community through education, counseling and support services. Our purpose is to help clients identify their strengths and to reach their goals. We do this by maximizing client strengths through education and skill-building tools that support positive life changes.

We're happy you have placed your trust in us. Heartland Family Service is accredited (approved) by the Council on Accreditation of Services for Families and Children, which means you may rest assured that the services you receive are reviewed regularly and will be of consistent high quality. The agency is a member of United Way of the Midlands, which assists us in providing a variety of services, most on a sliding fee scale. As a member of our national organization, the Alliance for Children and Families, we have the expertise and assistance of nearly 450 similar agencies in the United States and Canada.

PHILOSOPHY

Our agency utilizes a strength-based approach that emphasizes sanctuary principles. We recognize and acknowledge the significant difficulties, stress, and trauma that many of our clients experience, and we make it a priority to provide a safe and welcoming environment to receive services. Our programs offer education and opportunities for self-evaluation that permit each individual to make informed decisions regarding his or her life and growth.

ABOUT THE STAFF

Heartland Family Service staff persons have a broad base of training. Each program hires the best-qualified staff based upon specific program requirements and provides ongoing skill development.

ELIGIBILITY

The primary eligibility is a need for services. Certain programs within the agency may have specific eligibility criteria. If you have questions, please speak with a staff person or an agency intake worker at (402) 552-7400.

CHILDREN'S SERVICES

We are a family agency and strive to involve parents appropriately in our services to children. To obtain the most effective treatment, Heartland Family Service always encourages families to come in for counseling together. Our policy requires that in most cases, minors must have the consent of parents or legal guardians to receive services. However, there are times when it is necessary to assist a minor in serious distress or at high risk of harm without parental consent—for issues involving family violence, substance abuse, rape, etc.—until we are able to identify the nature of the problem and how our staff might help. Otherwise, minors must contact their parent or guardian to obtain a signed Consent to Treatment Form prior to receiving services including counseling, shelter or membership in Solomon Girls Center.
